10-12 P.M.	John Foss	Ken Brown "Kens Capers"	Rich Hill	Don Meeker "Round Midnight"	Walt Weening	Ron Keppel "Jazz on Friday Night"	Rich Hill

LETTERS:

TO ALL THE ORGANIZATIONS ON THE SUC CAMPUS:

Letters requesting information concerning the purposes, constitution, officers, advisors, and service to the school have been circulated to every existing organization on the Potsdam campus. This information is vital to SGA in conducting an overall re-recognition survey. It is hoped that each organization will be prompt in compiling this information and submitting it to a member of the SGA cabinet.

TO THE EDITOR:

It has been brought to my attention that the letter to the editor written by the program director of a WCCT Radio in Clarkson (in the October 13 issue) should be clarified. The gentleman attempted to make several points clear but by doing so created considerable confusion, not through his own fault, but by lack of correct information.

He said, "WNTC is listened to in majority in only one of the colleges, SUCEP. However, Clarkson is footing the bill for WNTC." With all due respect for Mr. Silver's opinion, that statement is completely false and highly dogmatic. Presently WNTC Radio is operated by the Student Governments of **both** the State University and Clarkson College. Our SGA is aiding in financing WNTC along with the Student Council of Clarkson College in equal share for the maintenance and operation and hopes to continue doing so. When WNTC first went on the air 13 years ago, both SUC and CCT jointly financed WNTC for many years and purchased the equipment that our station still has in operation. Several years ago SGA stopped financing WNTC due to a complete misunderstanding of the purpose of WNTC. As far as I know, there were no hard feelings between WNTC and SUC and to this day there are none. And to prove this, SGA has joined again this semester in financing WNTC with the Clarkson Student Council in which WNTC is very grateful.

Secondly, we at WNTC are more than aware of the fact that our signal at times is rough and distorted. We now have, through the assistance of SGA, the funds for new transmitters and the equipment necessary for a crisp, clear signal for the dorms on both campuses.

In regard to Mr. Silver's remarks, I would like to add a personal note. It is very obvious to me along with those at WNTC as well as the Racquette newspaper, that the letter received from WCCT was for retort of WNTC taking the initiative to co-operate with our good friends at the Racquette to publish a full page publicity spread for WNTC. Our radio station has always had respect and excellent co-operation with the Racquette newspaper and I am quite sure will continue to do so in many years to come.

Just a final note which in the past I have never publicly found the need to bring up; I have never heard WCCT on the air and do not plan on ever doing so. However, if I hear or receive anymore complaints about WCCT's so called legality, I will personally file a complaint for investigation of said station to Mr. C. L. Spencer of the Buffalo branch of the Federal Communications Commission for failure to comply with various provisions of Part 1, Part 2, and sections of Part 3 in accordance of the Communication Act and the Commission's Rules and Regulations. In short illegal broadcast procedures. This may seem very touching and maybe carrying things too far, but myself and several other radio personnel are becoming extremely annoyed of this whole affair. This is all I plan to say about WCCT Radio and I in turn feel that it would be very wise for that party to relinquish any further statements to this newspaper to which I am writing, or any other for that matter. WCCT Radio since its beginning has created undue trouble beyond necessity and has brought many people's patience to its limit.

Respectfully,
R. J. Potter
WNTC Radio
